DETAILED ACTION

Claims 1-24 are currently pending in this application. Claims 12-16 and 18-21 are now under consideration. Claims 1-11, 17, 22-24 remain withdrawn from consideration as being drawn to non-elected invention.

Response to Amendment

The reply filed on 12-26-02 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant was requested to elect a species. The previous Office action is repeated below.

---Claims 1-24 are currently pending in this application.
Claims 12-16 and 18-21 have been elected for examination.
However, the elected claims are subject to species election as these claims are directed to patentably distinct species.

Species Election

This application contains claims directed to the following patentably distinct species of the claimed invention:
Polynucleotides encoding enzymatically active variants of a precursor phenol oxidizing enzyme with SEQ ID NO:2 and amino acid changes at several positions indicated in claim 2.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (**i.e., a single specific variant with a single specific amino acid change at a single specific position**) for prosecution on the merits to which the claims shall be restricted if

Art Unit: 1652

no generic claim is finally held to be allowable. Currently, all claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must

Art Unit: 1652

be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).-----

Applicant, in the above Office action, was requested to elect “a polynucleotide encoding **a single specific amino acid change at a single specific position** in SEQ ID NO:2” for prosecution on the merits. For example, claim 12 is drawn to a polynucleotide encoding the variant of claim 2. The variant of claim 2 comprises a variant enzyme which is at least 68% identical to SEQ ID NO:2 and further has amino acid changes at a number of specific amino acid positions, a combination of positions, and amino acids to be replaced at these positions. Applicant is requested to elect a **single amino acid position**, i.e., position 48, or 67 or 76 or 83 etc. from the large number of different positions indicated in claim 2 in order to be compliant with species election requirement. See 37 CFR 1.111. However applicant has made no such election but simply repeated election of group II.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**
